IP INDEX

OF THE MUNICIPALITIES AND DISTRICTS
IN THE REPUBLIC OF BULGARIA

About the intellectual property indices

In order to simplify complex data, allow relevant comparisons between the different groups of indicators and avoid deviations that would be reflected as a serious imbalance between the territories studied, some of the parameters of the study “National Intellectual Property Map of the Republic of Bulgaria” have not been included in the construction of the indices presented below.

IP Index

The Intellectual Property Index is based on 4 industrial property parameters and 14 literary and artistic property parameters per 10,000 population for a specific territory (municipality) and a specific period (2020-2024). The maximum value of the index is 100 units and the minimum is 0, which forms the ranking presented below.

IndP Index

The Industrial Property Index comprises 4 parameters per 10,000 population for a specific territory (municipality) and a specific period (2020-2024): the number of applications for patents, utility models, trade marks and industrial designs. The maximum value of the index is 100 units and the minimum is 0, which forms the ranking presented below.

LAP Index

The Literary and Artistic Property Index comprises 14 parameters per 10,000 population for a specific territory (municipality) and a specific period (2020-2024): libraries, newspapers, books and pamphlets, magazines and bulletins published, cinemas, music ensembles, museums, theatres, performances, recitals and concerts, radio operators, television operators, films produced and chitalishta (community cultural centres). The maximum value of the index is 100 units and the minimum is 0, which forms the ranking presented below.

CRAFT Index

The Crafts Index is based on a single parameter of craft activity, the number of craftspeople entered in the register, per 10,000 population for a specific territory (municipality or district, respectively) as at 2025. The maximum value of the index is 100 units and the minimum is 0, which forms the ranking presented below.

COMPONENTS OF THE NATIONAL MAP OF INTELLECTUAL PROPERTY

1

INTERACTIVE NATIONAL MAP OF INTELLECTUAL PROPERTY

An online tool that visualises intellectual property activity across the territory of all 265 municipalities and 28 districts.

map.ipptt-unwe.bg

2

NATIONAL REPORT 2026

Summarises the results at district and municipal level, identifies the main trends and sets out recommendations for the development of intellectual property in the Republic of Bulgaria.

3

IP INDEX OF MUNICIPALITIES AND DISTRICTS

Contains four indices built on the data: the intellectual property, industrial property, literary and artistic property, and crafts indices.

4

INDIVIDUAL PROFILES OF THE MUNICIPALITIES

Contains four indices built on the data: the intellectual property, industrial property, literary and artistic property, and crafts indices.

INTELLECTUAL PROPERTY INDEX BY DISTRICT (2024)

INDUSTRIAL PROPERTY INDEX BY DISTRICT (2024)

LITERARY AND ARTISTIC PROPERTY INDEX BY DISTRICT (2024)

CRAFTS INDEX BY DISTRICT (2025)

TOP 10 MUNICIPALITIES WITH THE HIGHEST INTELLECTUAL PROPERTY INDEX (2024)**MUNICIPALITIES WITH THE LOWEST INTELLECTUAL PROPERTY INDEX (2024)**

TOP 10 MUNICIPALITIES WITH THE HIGHEST INDUSTRIAL PROPERTY INDEX (2024)**MUNICIPALITIES WITH THE LOWEST INDUSTRIAL PROPERTY INDEX (2024)**

133 municipalities have an industrial property index of 0 for 2024.

TOP 10 MUNICIPALITIES WITH THE HIGHEST LITERARY AND ARTISTIC PROPERTY INDEX (2024)**MUNICIPALITIES WITH THE LOWEST LITERARY AND ARTISTIC PROPERTY INDEX FOR (2024)**

TOP 10 MUNICIPALITIES WITH THE HIGHEST CRAFTS INDEX (2025)**MUNICIPALITIES WITH THE LOWEST CRAFTS INDEX (2025)**
